THE GUT IS EVERYTHING

Horses depend on their hindgut microbiome for up to 70% of their daily energy.

When gut balance is disrupted, you see it everywhere:

- Loose or inconsistent manure
- Anxious or difficult behaviour
- Gas, bloating or colic risk
- Dull coat and slow hoof growth
- Sluggish performance & recovery

The right nutritional support can restore balance and unlock your horse's potential.

WHAT IS OCEANFEED™ EQUINE?

Three oceans. One daily scoop.

OceanFeed™ Equine blends brown, green, and red seaweeds — each contributing different bioactives that work together on your horse's gut health and beyond.

BROWN SEAWEEDS

Immune Support & Skin/Hoof Integrity

Fucoidans, laminarins & polyphenols that reduce inflammation, support barrier function, and strengthen keratinised tissue.

GREEN SEAWEEDS

Gut Fermentation & Calm Behaviour

Highly fermentable ulvans that feed beneficial gut bacteria, boosting fibre digestion and SCFA production for energy and calm.

RED SEAWEEDS

Digestive Consistency & Antioxidant Balance

Gel-forming galactans that stabilise gut hydration, improve manure consistency, and reduce oxidative stress.

WHAT YOU'LL NOTICE

Six changes horse owners see after starting OceanFeed™

Coat & Skin

Shinier, healthier coat even through season changes. Positive effects on rain scabs.

Hoof Strength

Stronger hoof horn growth. Some owners report extended farrier visit intervals.

Calmer Behaviour

Less anxious, easier to handle and train. Improved focus and stable temperament.

Digestive Health

Firmer, more consistent manure. Less gas and bloating. Better gut comfort.

Performance

Improved stamina and sweat response. Faster muscle recovery after exercise.

Respiratory

Reduced nasal discharge. Greater resilience to environmental and seasonal stressors.

FROM THE STABLE

US Trial: 10 horses across 2. Florida stables. 45g OceanFeed™/day for 60 days.

Observations recorded by an Equine Osteopath, owners & trainers.

Ages: 2–23 years | Mixed breeds

"Notably calmer — easier to manage and ride"

— Trainer observation

"Shinier coat even during the winter coat change"

— Owner, 6-year-old Warmblood

"Stronger hooves — we extended the farrier interval"

— Owner, 22-year-old horse

"Firmer manure, much less gas than before"

— Equine Osteopath

"Faster muscle recovery after competition"

— Trainer, Thoroughbred

**Observations are informal and unblinded — contextual evidence, not controlled outcomes.*

THE SCIENCE BEHIND IT

A real microbiome trial - in US horses

10

horses in the

60

days of daily

6/6

young horses showed

ALL

ages saw reduction
in harmful bacteria

How OceanFeed™ works inside the horse:

1

Seaweed reaches
hindgut intact

2

Feeds beneficial
fibrolytic bacteria

3

Boosts SCFA
production

4

Reduces harmful
bacteria

5

Visible whole-body
benefits

Based on 16S rRNA microbiome sequencing. Exploratory study; findings indicate directional biological trends.

WHY MULTI-SEAWEED?

Not all seaweed supplements are equal

Single Seaweed (Ascophyllum only)

OceanFeed™ (Brown + Green + Red)

Gut fermentation

✗ Weak — doesn't ferment well in hindgut

✓ Strong — green seaweeds selectively feed fibrolytic bacteria

Manure consistency

✗ Minimal effect

✓ Red seaweed gels stabilise digesta & water retention

Iodine safety

✗ High variability — limits safe dose

✓ Multi-species distributes & controls iodine

Coat & hoof

✗ Moderate (minerals only)

✓ Brown + red: keratinocyte support & antioxidants

Behaviour & calm

✗ Not reliably supported

✓ Green → SCFAs → gut-brain signalling & comfort

SIMPLE TO USE

One scoop. Once a day. That's it.

45g

per day for an adult horse

1

Add to feed

Mix OceanFeed™ Equine into your horse's regular bucket feed or top-dress on forage.

2

Feed daily

Feed once a day consistently.
Works best as a long-term addition to the diet.

3

Watch & enjoy

Most owners notice changes in behaviour and coat within 2–4 weeks of daily feeding.

Available as crumble or powder — suitable for all equine bucket feeds.

READY TO SEE THE DIFFERENCE?

Give your horse the gut health foundation they deserve.

OceanFeed™ Equine — backed by science, proven in stables.
